### **DETAILED ACTION**

1. Applicant's Pre-Brief Conference request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn. This Office Action is Non-Final.

### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 1-19, drawn to a system and method for archiving an item, classified in class 707, subclass 204.

Group II: Claims 20-23, drawn to a method for generating layers corresponding to color separations for a printing process, classified in class 382, subclasses 164 and 175.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions Groups I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as a system and method for archiving an item and Group II has drawn to a method for generating layers corresponding to color separations for a printing process. See M.P.E.P. § 806.05(d). Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II; therefore, restriction for examination purposes as indicated is proper.
